

SWPDA WORKSHOP 2010**Keynote Speaker****Dr Marilyn Campbell****Cyberbullying - A new version of an old problem****When: Saturday 20 March 2010 at 9.00am (Registration) -3.30pm****Where: PTC Conference Centre
Corner of Norton and Marion Street, Leichhardt*****NSW Institute of Teachers Accreditation Pending***

Cyberbullying is a new version of an old problem in the domain of email, texting, social networking, chat rooms, mobile phones, mobile phone cameras and web sites. Cyberbullying could be more damaging than face-to-face bullying because of the wider audience, the power of the written word, the 24-7 nature, and the disinhibition that some students feel.

Teachers need to be familiar with these technologies that students use so confidently, so that they recognise issues and raise them with their students.

About Dr Campbell

Dr Marilyn Campbell is an Associate Professor at the Queensland University of Technology preparing psychologists and school counsellors. Previous to this Dr Campbell supervised school counsellors and has worked in infants, primary and secondary schools as a teacher, teacher-librarian and school counsellor. Her main clinical and research interests are the prevention and intervention of anxiety disorders in young people and the effects of bullying, especially cyber bullying in schools. She is the author of the Worrybusters series of books for anxious children. Dr Campbell is currently the leader of the research team studying cyberbullying for the Australian Research Council.

Dr Campbell's presentations will cover

- Current findings from research
- Legal implications
- Suggestions for preventing cyberbullying
- Strategies to manage cyberbullying

The day will include presentations, examples, and ongoing opportunity for discussion and input from the attendees.
